

Business Connectivity

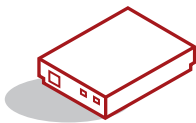

✓ T1 Service

- > Full duplex data transmission
- > Priority data routing
- > 99.99% uptime
- > 24 x 7 monitoring and support

✓ Fiber Optic

- > Point-to-point or dedicated ring options
- > A wide array of speeds: 5 Megs - 1 Gig
- > Secure, scalable and redundant connectivity
- > Fiber can carry about 3 trillion bits/sec.

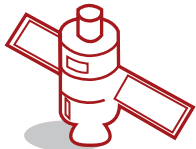

✓ DSL Service

- > Speeds up to 7 Megs download
- > +/- 70x faster than 56 Kbps dial-up
- > Easy & fast communication
- > Inexpensive back-up

✓ Wireless

- > Fast speeds at a fraction of the cost
- > Easily scalable as your network grows
- > Redundancy for existing networks
- > Licensed and unlicensed frequencies
- > 24 x 7 network monitoring & support

✓ Satellite

- > Easy install & connects in minutes
- > Full IP compatibility
- > Multi-user capability
- > Stream data at a variety of speeds

Your Internet Access Needs Change As Your Business Grows.

Companies have been experiencing a bandwidth revolution, increasing the size of their Internet connections as bandwidth prices drop and they seek to boost their competitiveness.

Implex Has Five "Network Connectivity" Options For You.

Implex T1 Line Service

T1 offerings are available in varying configurations and speeds (from 512 Kbps to 1.5 Mbps), and include integrated T1, Bonded T1, Fractional T1, and other options.

- **Dependability.** Implex T1s guarantee at least 99.8% uptime, port speed and packet delivery.
- **Monitoring.** Continuous monitoring allows us to resolve problems before you know of them.

Implex Fiber Optic Metro Ethernet

Transfer data at the 'speed of light' and interconnect offices, branches and data centers. Implex has installed fiber optic rings throughout downtown Minneapolis and St. Paul.

- **Affordable.** Affordable, secure, scalable, and redundant connectivity for your business.
- **Choices.** DS-1, DS-3, OC-3/3c & STM-1, OC-12/12c & STM-4/4c, OC-48/48c & STM-16/16c, OC-192.

Implex DSL Service

Offered in conjunction with Qwest, Implex provides high-speed DSL service that is ideal for the home office or small business. We can have you surfing the web up to 70x faster than dial-up, and you get superior Implex support.

- **Surf up to 70x faster than dial-up.** Speeds ranging from 256 Kbps up to 7 Megs download.
- **Convenient, easy and fast communication.** Backed by exclusive 24x7x365 Implex support.

Implex Wireless Point-to-Point

Implex Wireless Internet solutions are high-speed, point-to-point broadband connections between Implex 'transmitters' on towers or buildings and client sites. You can transfer vast amounts of data at a fraction of the cost of wired services.

- **Superior Range.** Ranges of up to 40 miles (65 km) & data throughput from 2 Mbps to 1 Gbps.
- **Redundant, Scalable.** Choice backup & redundancy power, & it grows with your requirements.

Implex Satellite Internet

Utilizing the Inmarsat BGAN service, together with a Hughes 9201 Broadband Satellite Terminal and our expertise, Implex offers a true alternative network that can enable corporate teams to communicate information from anywhere.

- **Convenience.** Fully accessible from anywhere, anytime - easy to install, connects in minutes.
- **Quick & Compatible.** Speeds for streaming data up to 460 Kbps and full IP compatibility.

We Get Business Connected

Implex Data Center

Located in a former bank vault in downtown Minneapolis and surrounded by 21" of steel and concrete, the 5,000 sq. ft. Implex "Data Safe" is a best-in-class data center facility.

Designed and equipped with secured access, sophisticated environmental controls, redundant power feeds, and fast, multi-honed, multi-carrier access to the Internet backbone. Experience the serenity that comes from working with us and free yourself to focus on building your business.
