

Managed Data Services

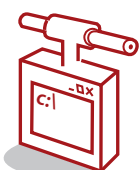

✓ Server Colo

At Implex we'll provide your hardware a secure home in our data center. We'll supply the bandwidth, 24x7 monitoring, IP address assignment, rackspace, and managed services options.

✓ Web Hosting

With self-service and full-service options available, Implex can meet any of your web hosting needs. We can provide your domain name, upload files through FTP, add email accounts, and much more.

✓ App Hosting

Implex has the infrastructure and superior support to host hundreds of web applications and databases such as: PHP, MYSQL, Microsoft SQL, Microsoft Sharepoint, Microsoft .NET, Microsoft Exchange 2007, OS Commerce and more.

✓ Data Backup

Only off-site backup protects your files from theft, fire, and other local disasters. With Implex, your files are encrypted, and uploaded off-site on one of the secure servers located in the Implex Data Center.

✓ Network Services

Implex provides a combination of engineering resources, management tools, and platforms. Optimal for companies with limited in-house expertise or those who prefer to have an end-to-end managed service solution.

Your Data and Your Servers Are Important to Your Business.

When you choose Implex for hosting your data and servers, you will get more than hard drive space or a cabinet in our Data Center - you will also get skilled engineers, cool solutions, and a safe, professional environment to serve you.

We Offer Five "Managed Data Services" to Meet Your Needs.

Implex Server and VM Colocation

Our Data Center offers a secure place to host your server or virtual machine, plus, our tech staff is always available to make sure everything is running smoothly.

- Service. We provide the bandwidth, 24x7 monitoring, IP assignment, rackspace and more.
- Server & VM Options. Physical and virtual server hosting options & full-service troubleshooting.

Implex Website Hosting

Implex offers both 'self-service' and 'full-service' website hosting solutions:

- Self-Service. Purchase your domain name, upload files through FTP, add email accounts & more.
- Full-Service. Customized to meet your needs and packaged with free Technical Support, this solution is for those with an enterprise website or an integrated database that is "business critical".

Implex Application and SaaS Hosting

There are tons of business Internet software applications available out there, each with their own capabilities and specifications. Fortunately, Implex has the infrastructure and superior support to host your applications and databases.

- Flexible. Host to hundreds of unique apps from eCommerce and SaaS, to databases and streaming media systems, we even host special requests whenever possible.
- Experience. We know Microsoft SQL, Sharepoint, .NET, Exchange; OSCcommerce; Implex QwikCast® Webcasting Software, Open Source solutions and many more.

Implex Data Backup and Retention

We have 'self-service' and 'full-service' backup hosting solutions for your data.

- Self-Service. Your files are encrypted & uploaded off-site onto secure servers in our Data Center.
- Full-Service. We also deliver fast, reliable data backup & recovery plans for businesses.

Implex Network Services

Implex proudly offers you exemplary network services that provide 'managed server' management and 'managed network and LAN' solutions. And our professional systems engineers will ensure everything continues to run smoothly.

- Managed Server Services. Engineering resources, management tools, and platforms.
- Network & LAN Management. Improved operational efficiency, support, and experiences.

We Keep Data Safe

Implex Data Center

Located in a former bank vault in downtown Minneapolis and surrounded by 21" of steel and concrete, the 5,000 sq. ft. Implex "Data Safe" is a best-in-class data center facility.

Designed and equipped with secured access, sophisticated environmental controls, redundant power feeds, and fast, multi-homed, multi-carrier access to the Internet backbone. Experience the serenity that comes from working with us and free yourself to focus on building your business.
